EDUCATION:

Bachelor of Science, *Computer Science* - GPA 3.8

Adelphi University – Garden City, NY

PROFESSIONAL EXPERIENCE:

Revature March 2025 - present

Software Developer Intern

- Led a team of 4 developers to successfully deliver a full-stack web application using React, TypeScript, Node/Express.js, and AWS services
- Designed and implemented RESTful APIs with authentication/authorization via JWT; secured sensitive data with Bcrypt encryption
- Built responsive front-end UI with React, HTML/CSS; ensured quality with Jest tests achieving 90%+ code coverage
- Utilized AWS DynamoDB for data storage, S3 for secure image uploads via signed URLs, and deployed via EC2, S3, and CodePipeline/Build
- Managed version control with Git and GitHub, following best practices for collaboration and CI/CD

Revature July 2024 – September 2024

Java Software Engineer Intern

- Developed REST API endpoints in Java using Spring Boot.
- Leveraged databases with the use of JPA Repository to manipulate recorded data.
- Utilized Java 21 to enhance codebase within an MVC design pattern.

Fast Enterprises, LLC - Denver, CO

July 2023 – February 2024

Software Implementation Consultant

- Used VB.net to write and maintain enterprise software affecting millions of clients.
- Achieved a 10% reduction in code using vb.net.
- Increased SQL query efficiency by up to 150%.
- Used CI/CD Pipelines to drive software development.
